

FOR IMMEDIATE RELEASE

Sullivan Engineering Recognized as a Fastest-Growing Firm and Best Place to Work
NY-Based Building Envelope Consulting Firm Ranked #7 for Structural Engineering

New York, NY, June 8, 2017 – Sullivan Engineering, LLC ([Sullivan](#)), a full service building envelope consulting firm, announced today that it has been recognized as one of the 100 fastest-growing firms on Zweig Group’s 2017 Hot Firms List and as a 2017 Best Firm to Work For. Both accolades are among the only industry award programs to specifically target engineers, architects and design professionals.

The 2017 Hot Firms List is an annual ranking of the 100 fastest-growing firms in the architecture, engineering, planning and environmental consulting industry. Sullivan, which has also been recognized by SmartCEO for its success and growth through the [Future 50 Awards in 2016 and 2017](#), was named to Zweig Group’s Hot Firms List after exceeding the ranking criteria which is based 50 percent on percentage growth rate and 50 percent on dollar revenue growth rate, over the previous three years.

“Getting on the Hot Firms List is like winning an Oscar. It says you are the best at what you do – running an A/E/P or environmental consulting firm – in an industry made up of 100,000 companies,” said Mark Zweig, Chairman and Founder of Zweig Group, a management consultant company.

Sullivan also ranked 7th in the structural engineering category for Zweig Group’s Best Firms to Work For awards, which honor the creation of outstanding workplaces at architecture, landscape architecture, geotechnical, environmental, and civil, structural and multidiscipline engineering firms. The award, which was graded on a combination score of comprehensive employee surveys and corporate evaluations, measured workplace design, teamwork, excellent benefits and amenities and work culture.

“We’re so pleased to be among the esteemed group of winners for both Zweig Group awards this year,” said Brian Sullivan, Principal of Sullivan. “Since our founding, our team has worked hard to deliver excellent work that’s focused on improving the quality of life for everyone involved and it’s been humbling to witness how our passion has turned into tangible results for the company and industry.”

Sullivan, along with the other winners, will be celebrated at the Hot Firm and A/E Industry Awards Conference held at the Fairmont Olympic Hotel in Seattle, Washington on September 21-22, 2017.
